1871-1946

SEVENTY-FIVE YEARS OF BANKING

Factories without SMOKE...

Factories with gleaming glass-fronted walls and great windows flooding their interiors with sunshine... rimped by garden plots, playgrounds, parklands... close to unexcelled, well-planned residential areas in which their workers live; that is the future of the Canadian industrial community now within view. In such progressive developments as this, The Dominion Bank, for three quarters of a century a forward looking bank, will continue to play its part.

U-BOATS WENT 250 MILES UP ST. LAWRENCE R.

Naval Statement Discloses Summary of Torpedoing and Sinkings

By KATH BRATLEY (Canadian Press Staff Writer)

Ottawa, April 2 (CP) — Official disclosures that U-boats opened 250 miles up the St. Lawrence River near the mouth of the Saguenay was made Monday by naval headquarters. A statement given for the first time a detailed summary of the torpedoing of 26 ships and the sinking of 25.

All but two of the attacks, which resulted in a loss of 60,000 tons of Allied shipping together with vital war cargo, occurred in the concentrated submarine attacks in 1943.

Defence operations, which saw the Cape Peninsula barge with cargo, ground and aerial defence forces and radar detection devices, had resulted in a concentration of strength the following week, but there were few attacks, the navy said.

Today's naval release said U-boats reached the Saguenay and

To See Canada and Canadians

In a few days Canada will welcome the annual great day of Allied arms in the Mediterranean and Italian theatre of war, who claims he has never been a politician and who promises to become one of the greatest travellers Canada has known. As reported yesterday he has one ambition to help encourage Canadians' awareness of their great nationality and of their wonderful position in the Commonwealth and the Empire.

The new representative of His Majesty the King will exert a fine influence on the Canadian people, and he is going to be to Canada as his guests many of the great men of the war period. The hale and healthy man, the Governor-General, who will appear to the people of the Dominion, that the Viscount is going to enjoy popularity in the Dominion is the Dominion.

Such words as these he spoke the other day in an interview say much: "To see, to see, to be to my home, to be to my home, we are going out bag and baggage, we are going out with our family right down to the children's sheep dog and two pigs."

He has a very high opinion of Canadians, having met many in the services and he is going to be to Canada as his guests many of the great men of the war period. The hale and healthy man, the Governor-General, who will appear to the people of the Dominion, that the Viscount is going to enjoy popularity in the Dominion is the Dominion.

Viscount Gort

Viscount Gort, V.C., whose name became one of the most familiar especially in the early part of the Second Great War, has been the age of Canada's defence for five years before the war broke out chief of the Imperial General Staff. He is in command of the British army in France in the early days of the struggle. Upon his shoulders falls a very grave responsibility as the Germans expand through the Low countries and pointed out the danger of an April 1940. It was under him that there took place the great and successful withdrawal to the beaches of Dunkirk, making possible the evacuation of a third of a million troops in one of the greatest military events in the history of the world. That post was one of the greatest distinction and it was followed later in 1944 with the command of the Canadian Expeditionary Force in Palestine which he finally yielded because of failing health.

The place of Viscount Gort in British military annals is a legend. He was a heavy task he carried out in France in 1940 and with the performance of his duty as commander of Malta in the days of the war was of the utmost importance to the British position.

He is a young man he won the Victoria Cross in the First World War when he led the attack of the Grenadier Guards across the Cassini du Nord, though he was twice wounded but he was not killed.

Viscount Gort bore his honors modestly, he was a leader, who inspired his troops, who was the reliance he had in his wisdom, courage and energy.

Liquid Springs

An invention of a revolutionary importance has been discovered by a British firm of engineers, specialising in aircraft undercarriages. His new discovery has been accepted the theory that liquids were incompressible. Every attempt to utilize liquids for springs and shock absorbers was consequently in vain. Now technicians have perfected a liquid spring which operates at pressures of up to 100,000 tons per square inch. This is the first epoch-making invention was completed during the war. At first the technicians in the Government were so confused by the results

Spring Cleaning Twice a Century

Spring housecleaning, or at least the tidying up part of housecleaning is not confined only to modern and civilised communities, according to K. E. Kidd of the Royal Ontario Museum. At least one of the oldest people of the world lived in it, not, indeed, every year but at stated intervals, perhaps every 10 or 20 years. These were the Toltecs, who lived about 1000 years ago around the present city of Mexico. These folk built magnificent "pyramids" of rubble and at the top of which stood their wooden temples. When the storm clouds in the "pyramid" grew soiled or damaged, the Toltecs renewed it by adding a new surmounting of rubble and stone, much as we put on a new coat of paint on a house.

The Toltecs, however, this refreshing job was done in honor of the gods, and was, therefore, in a way, a religious rite, and the Government of the world is a model of a Toltec city showing a "pyramid" which is now known as the decorated seven times.

Birds Are Globe-Trotters

The aeroplane is rapidly converting man into a cosmopolitan creature, and is now being enjoyed by the inveterate travellers, the birds.

L. L. Snyder of the Royal Ontario Museum stated that some of our common shorebirds nest within the Arctic Circle in the summer, and yet, in our winter, are to be found at the bottom of the Gulf of Mexico. The Least Sandpiper, for instance, a sparrow-sized bird, may nest in northwestern Alaska in summer and spend the rest of the year in the tip of South America. Very great distances are travelled also by certain plovers and sandpipers.

Distance is not the only remarkable feature of the annual flights of shorebirds. As a rule, adult birds migrate separately, departing before the young hatch.

Our shorebirds may visit Eurasia, as occasional strays turn up in England. Some birds, indeed, spend the winter in Alaska may regularly go south via the Asiatic coast.

Newspaper Facts

Of 31 companies which put up to 100 per cent of their advertising appropriation in daily newspaper ads, the average gain last year experienced was 22 per cent, according to the American Association of Newspaper Representatives.

Vitamin K will reduce tooth decay by 60 per cent, say U.S. authorities. Although effective in reducing the population according to Hamilton Specialists.

God gives manhood but one clue to success in the world—hard work. God gives manhood but one clue to success in the world—hard work. God gives manhood but one clue to success in the world—hard work.

JUST FOLKS

By EDGAR A. GUEST
(Copyright, 1934, Edgar A. Guest)

BOYS AND MEN

Into every youngster's life walks a grown-up now and then. Who will long be remembered as a friend, a guide, a mentor.

He was first to take a boy to a ball game or a show, or to a long and arduous task, and he fairly asked to know. And there's nothing to be found in the goals which mortal pain. He holds more to a boy's pride than to be that sort of man.

Every one of us recalls, at the tables, where men chat. One in boyhood's long who proved to be a friend, a guide, a mentor.

Oh, remembering the need for an understanding friend, To make a hapless boy, had the time and means to spend.

Still we see his hand outstretched; still we praise as best we can, One who took to his heart and was just that sort of man.

He'll remember who lit death; write a book of you or song. He'll relate how much it meant to him, One who took to his heart and was just that sort of man.

He'll pass on the skills you taught to and some boy needs his aid, And some boy aches of life will not let him go. This has been a youngster's need since the race of men began. A grown-up for his friend who is just that sort of man.

OFF THE RECORD

Nazi Underground Plot is Grim Warning to Allies

By DWYER MACKENZIE

The Hitler underground plot to reveal the Allies' secret plans to the Germans, disclosed during the weekend, is a warning to the Allies that the Nazis are not only capable of the military cooperation that they have shown in the past, but also of the most ruthless and cunning tactics that they are capable of.

out the country and about half, the ambassador Andrei Gromyko, continuing the transfer of the Russian Embassy to the new building. The referendum would decide whether the union should "take a secure, including a strike" for a 40-hour week.

William affairs had been handled by the company with his troops but that, because of friendly, peaceable situation in the Settlement.

Mr. Als stated on Premier Ahmed was in the city and its settlement will be read after Mr. been presented to Chairman Qoo

Mr. Millard said all U.S.W.A. locals, covering about 60,000 men and women, are now in the plants across the Dominion will be asked to take votes giving union officers authority to call a strike.

"We cannot as employers secure price boosts through a board of directors," he said, "and representatives of labor and then go before a War Labor Board which does include representatives of employers."

Mr. Millard said the union would enter into direct negotia-

Recent price increases in primary steel mills of \$5 per net ton of ingot made it necessary for labor to achieve wage increases to keep abreast of the cost of living. The U.S.W.A. assumed that its full wage demands were justified for its members.

in the United States 18½ per cent wage increases had been granted in the steel industry in advance of the authorization for a price increase.

"This union will continue to do everything possible to avoid a price increase, but if the government is determined to raise the price of steel, we will have no choice but to accept it. We will then turn our attention to restoring the balance between living costs and purchasing power. It will take a long time to do this, but we will rest squarely on the government and the manufacturers.

"I am sure that the support for the other large unions of the Canadian Congress of Labor when I say that they will similarly meet

MOVIE - DAZZLES

Beverly Hills, Calif., April 3—(AP)—A movie-dazzled 12-year-old girl who left her San Jose home and came 350 miles here to see Ann Miller got as far as the actress' doorstep today before she fell asleep. Then she continued her nap in the police station while waiting for papa to come to fetch her. The girl, Jeanette Carlson, was found by Miss Miller's maid.

Swansea, April 3 (CP)--Last week's mild spell cost residents of this Toronto suburb \$111 when high school students disdained the village-operated school bus in favor of walking or bicycling, leaving the village with a sizeable deficit on the bus service.

Asks A Nations Abolish War As Sovereign Right

Gen. MacArthur Launches Allied Council for Japan

Washington, April 5 (AP)—Gen. MacArthur advanced last night that all powers "should be as a sovereign right."

In a speech at Tokyo to the initial session of the four-power conference on Japan, he said that the United Nations should be created to "abolish war as a sovereign right."

Drew Critical Of Pamphlet Being Distributed

Toronto, April 5 (AP)—Premier Duffin told the Ontario Legislature today that a pamphlet he had drawn up, "The Case of the World's War," was being distributed in the city.

HOUSE PASSES THIRD READING OF BILL

Legislation Called In Early Session In Order To Prolongue Late This Afternoon

The Ontario Legislature was called to an early session at 11 a.m. today to prolong the session until late afternoon, after giving birth to a bill to amend the Ontario Motor Vehicle Act.

Soviet Oil Concession In N. Iran Seen Likely, Say U.S. Oil Executives

By JOHN F. CHERES
New York, April 5 (AP)—An initial handoff for Russia to Middle-East oil, which would be made by the United States, is seen likely, say U.S. oil executives, by informed executives here.

"CANADA DAY" BILL READ THIRD TIME IN THE COMMONS

If It Passes Senate Dominion Day Will Henceforth Be Called Canada Day

By GEORGE EYRE
Ottawa, April 5 (AP)—A bill to amend the Dominion Day Act, which would change the name of Dominion Day to "Canada Day," was read a third time in the House of Commons today.

Iranian Govt. Signs Agreement With the Soviet

Russian Troops To Evacuate Within Six Weeks of Mar. 24

By MEL POT
Tehran, April 5 (AP)—The Iranian government today signed an agreement with the Soviet Union, providing that Russian troops would be evacuated from Iran within six weeks of March 24.

He identified the publication as "The Case of the World's War," and said one of the worst features of the campaign is that the pamphlet is being circulated among the children.

The House has as a house of commons, the Ontario Legislature today passed a bill to amend the Ontario Motor Vehicle Act.

Famine in Europe 'Inevitable' Unless All Available Food Sent

London, April 5 (AP)—Herbert Hoover said today that unless all available food is sent to Europe, famine is inevitable.

The disagreement was over Bill No. 8, a nine-page bill sponsored by Philip Colby, which would change the name of Dominion Day to "Canada Day."

Paris, April 5 (AP)—Dr. Marcel Petiot, accused of operating a "black market" in the city, was sentenced to death today.

Big League Seizure Made

Toronto, April 5 (AP)—The Toronto Police today made a big seizure of illegal gambling equipment in the city.

For Peacetime Use
Over in Britain the wartime clubs are being put to peacetime use. These social and recreational facilities were established primarily for war workers transferred from their homes. Now the British Ministry of Education has announced that these clubs with their equipment and furniture will be made available to local authorities as community centres.

Such centres are a notable feature of all reconstruction plans for Britain's urban areas and fifteen months ago the Ministry of Education published a report emphasizing its urgent need for all rebuilding plans to be provided by means of such centres for the wide use of leisure, especially for lower income groups. The report stated that the Government's gift of these wartime workers' clubs will greatly help it, by providing the realisation of a healthy community centre within easy reach of every worker's home.

Peacetime and right in Ontario, too, there has been a great deal of news of community centre planning. In England and here the supervisory role of making provision for people young and old for use of their leisure hours which may be made rich in opportunity for the future. In the last few years the fewer labour hours are pronounced everywhere and have been the matter of legislation. In these periods less what everyone sees an immense opportunity if properly seized, that will result in the finalisation of a healthy and happiness of the people.

British communities are fortunate in having community centres available for them and to be given for the asking.

The Security Council
The United Nations Security Council which has the most important role that can be in the hands of the world has for several weeks been the centre of attraction of the eyes of the world. The great power facing the world has been attention and now after passing through the machinery of the Council, the crisis of the world has been brought to a head. Russia's assurance is accepted.

The Council has come through its first big problem it has faced, according to the press, in a very satisfactory manner. The United Nations will "work" has been the prayer and hope of the millions of mankind who want to see the world united and fraternity and brotherhood reign on earth.

"It could be a bad day for humanity if the U.N. did not 'work' out in practical action for that is its business and the world's greatest hope," said a leading authority on the solution to every dispute or misunderstanding is felt by the peoples of the world and more especially by those nations which are associated with the inner councils of so great a world body or organization as the United Nations. These nations are the United States, the Soviet Union, France, and the United Kingdom. The great possibility of modern weapons and possible future weapons of offence makes the need for an effective worldwide body such as the United Nations.

The failure of the former League of Nations to discuss the world's problems which notes a theory that the old League "lost its grip on the world affairs because of the indifference of individuals for their faith in internationalism."

"It was not only the absence of the United Nations from the world scene, but the deadly apathy paralyzing public opinion in the countries represented which doomed the great experiment to failure," said the late of centralized political power for the saving of trouble-making nations."

The United Nations have the practical principle of a security police force as one of the cardinal facts for effectiveness. There surely will be the will power of the people of a united world backing the Security Council in whatever action it is called upon in the future to decide and solve.

It Is U.N. Not U.N.O.
That rather odd word as a name "Organization" used in connection with the words "United Nations" will no longer be used. Official announcements has been made that the "great peace body" is known as the United Nations and that the initials are "U.N." not "U.N.O."

Actually the phrase "United Nations Organization" of U.N.O. has no role in fact.

for nowhere in the charter of the "Nations" is the word "organization" used as a name. The word "organization" is used as a name throughout the phrase "U.N.O. gained almost worldwide use. The abbreviation of the title is plain "U.N.O." and "U.N.O."

Commercial Weatherman
The weatherman, thanks to a lot of experience during the war, is about to branch out and provide us with a great deal more than our main topic of conversation. He is going into business—big business.

War-developed techniques will enable a baker to know how much bread to produce on a given day, a steam generating plant to know how much of it, a power house to make use of electric utility to know how much power will be needed, and so on. The bakery will save money by knowing how much bread to bake. The power plant will save money by knowing how much power to generate. The electric utility will save money by knowing how much power to generate.

Much of the basic information which has been gathered in the industry can find profitable use, if, of course, already available from the official government weather forecasters, or, if not, by the weather service.

The government forecasters do not have the facilities for analyzing the information to fit the needs of individual concerns. That is where the commercial weather forecaster will come in.

—Cleveland Plain Dealer

Charge of the Light Brigade
Two world convulsions, which overshadowed some former wars, cannot diminish the interest of those glorious episodes as the war of the Crimea. The Light Brigade, a division of the British army, was sent to the Crimea in 1854 to fight the Crimean War. The Light Brigade was sent to the Crimea in 1854 to fight the Crimean War. Black-Market
One of Factors
In Food Crisis
By DAVID MACKENZIE

We are hearing a great deal about the plague of hoarding which is sweeping the world, but it is not so much the hoarding itself that is the trouble, but the fact that it is being done in such a way as to make it impossible to get the goods that are needed.

Experts of eighteen countries are meeting in London to discuss the problem of the food crisis. They are expected to agree on a plan of action which will help to solve the problem of the food crisis.

The problem of the food crisis is a very serious one. It is a problem which affects the lives of millions of people. It is a problem which must be solved if we are to have a world at peace.

The problem of the food crisis is a very serious one. It is a problem which affects the lives of millions of people. It is a problem which must be solved if we are to have a world at peace.

BOWLING LEAGUE OF EIGHT TEAMS HAS BEEN FORMED

Teams Will Play Each Monday Night for Quinte Hotel Trophy

LESSON NO. 84

By SAM GORDON
The Kibitzer

A lead is as sure as you are or your partner. If you know your partner follows customary rules, he should tell you plenty. They can give you a pretty good idea of who holds what cards.

When partner leads a must, assume it is a fourth best of the suit. If the four highest cards in that suit, "learn what you can about that suit, apply the rule of 11."

That is the hot card and suit. If it is just a tale of simple mathematics. Take the top of the hot card and subtract it from the numeral 11. The result will show nearly each of the other players hold higher than the hot card.

You need that information in a hurry. It helps you decide which of your cards to play in that suit. It tells you whether you must use your biggest card or not at all with a lower one.

Have you ever been in doubt as to which of several cards to play? Of course you have. Many a time. Well, the rule of 11 will take much of that doubt away. If you take the privilege of applying it, sit east in the deals where the hearts are as shown here:

NORTH
W 9 2 2
WEST 8 13 5 EAST 10 16 10
SOUTH
W 4 3

Against a four made contract, the lead of the west is the heart five. Believed him from 11 and 10 and 10 and 10. The heart five is the best lead from a five in hearts and south.

Two of them are in dummy. They are in the hand of the dealer. Where is the sixth heart higher than a five? It must be in south.

When you will soon learn why, west would not have led that suit if he had the lead. So you know the only heart higher than a five that the south hand is the heart five. That tells you what to play.

If dummy plays the cards, go with the ace. If dummy goes with the nine, go with the king. If dummy uses the green, only then can you tell your king. You know what will force the king.

When partner is true you know what to do.

Keen competition is expected in the eight-team bowling league that has been formed in the district is that includes Belleville, Madoc, Stirling, Campbellton, Hawkeville, Brighton and Hawkeville. In order to have even number of teams, Belleville and Madoc clubs have entered two teams and each team is to consist of two clubs of four each.

The meeting to form the league was held at the Belleville Hotel last night. The league will be the first league championship in the district since the Belleville delegation to the meeting was Cliff Argue and Ed Zuzof.

The preparation of the schedule was left to Mr. Argue and it is expected the league will start operation about the first of June. The schedule calls for one night a week with the clubs playing away from home with the Belleville and Madoc clubs playing at home.

Belleville and Madoc clubs are expected to be the favorites in the league. The league will be the first league championship in the district since the Belleville delegation to the meeting was Cliff Argue and Ed Zuzof.

Belleville and Madoc clubs are expected to be the favorites in the league. The league will be the first league championship in the district since the Belleville delegation to the meeting was Cliff Argue and Ed Zuzof.

MONARCHS MOVE INTO THE FINALS, BEAT EDMONTON

All Players of University of Hamilton Will Write Exams in Toronto

By CHARLES FINCH
Canadian Press Staff Writer
Winnipeg, April 5 (CP)—Winnipeg Monarchs moved into the finals of the Memorial Cup, emblematic of the Canadian junior hockey championship, today by beating Edmonton 4-1.

The Monarchs' victory over Edmonton was the first of the season in which they had won a game. The Monarchs had lost their first three games, but they won their last three.

I have been a subscriber of Old Home Week for many years and enjoy the paper very much. I have been a subscriber of Old Home Week for many years and enjoy the paper very much.

PERSONAL HEALTH TALKS
By WILLIAM BRADY, M.D.
Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, not to diseases, cannot be returned, will be accepted by Dr. Brady if they are of interest and are not of a sensational nature. Letters should be signed and written in ink. The writer's name and address should be given, but will not be published unless the writer consents to it. Letters should be forwarded to Dr. Brady, and it is requested that readers who are interested in the subject should send them to him.

WEAK, WATERY BLOOD
Fifty million. As the old saying is, "Two-windies make a man," it is only the crystals of these million color cells in the blood that make the difference between a healthy and a weak man. The blood is the life-giving fluid of the body, and it is the quality of the blood that determines the strength of the body. The blood is the life-giving fluid of the body, and it is the quality of the blood that determines the strength of the body.

Tourists by Millions Coming
1946 will be a big year in the tourist trade of Canada according to the Canadian Press survey. The accommodation of the millions of tourists will be the first of the big problems that will be faced by the country. The accommodation of the millions of tourists will be the first of the big problems that will be faced by the country.

Premier Drew Urges Increased Food Production

Charlottetown, April 8 (CP)—Declaring that the threat of food shortages is a real one in Canada, Premier Dufferin today urged an increase in food production in the Atlantic provinces.

The premier said that the Atlantic provinces have a great opportunity to increase their food production, and that it is the duty of the government to encourage them to do so.

He said that the Atlantic provinces have a great opportunity to increase their food production, and that it is the duty of the government to encourage them to do so.

Why Do People Borrow Money?

For many reasons. To pay medical and hospital bills—consequence of illness—buy clothing, travel expenses, home furnishings, repairs, fuel, money-making opportunities, social relatives, automobile expenses, loans.

Usually it is better to borrow only when you must. But there are times when it's wise to make a loan—when it's better for all concerned.

Household Finance Corporation is Canada's largest and oldest Small Loans Company, with 35 offices in 23 cities.

You can arrange a loan from \$25.00 to \$1,000.00 in any one of these offices and have up to 24 months to repay. We've tried to make it simple and convenient for you to borrow at Household. We can arrange your loan by telephone if you prefer.

All you do is send the amount of money you need, and how you want to repay. Usually you can get your cash the same day you apply.

Add the cost of your loan will be less at Household than at any other Small Loans Company in your community. We will be more than glad to help you any time you want.

HOUSEHOLD FINANCE

Canada's largest and oldest Small Loans Company with 35 offices in 23 cities.

M. E. Holt, Manager

Fire Destroys Greenhouse Of Henry Coutts

Trenton, April 8 (CP)—Henry Coutts, 31, Front Street, reported to police that he had been notified by the fire department that a fire had broken out in his greenhouse. The fire was caused by a gas leak from a heater. The greenhouse was destroyed, and the loss was estimated at \$1,000.

Another addition to the number of new flowers in Trenton is the 'Mayday'.

The 'Mayday' is a new flower variety that has been developed by the Trenton Horticultural Society. It is a very beautiful flower, and is expected to be popular with gardeners.

Indian Princes Will Co-operate In New Union

New Delhi, April 8 (Reuters)—The Indian Princes—rulers of states with a total population of more than 60,000,000—appear to be generally agreed that there will be no great difficulty in joining the new self-governing Indian union provided they are consulted and their dynastic independence protected.

Soviet-Iranian Oil Agreement Is Announced

Tehran, April 8 (AP)—Russia will be the majority stockholder in a Soviet-Iranian oil company for the first years of its 20-year term. The agreement was announced by the Iranian parliament.

Boys Thought Slain Was That of Indian

Charlottetown, April 8 (AP)—A boy who was killed by a train on Saturday night was thought to be the same boy who was killed by a train on Saturday night.

Cobourg Youth Drowns in Harbor

(By The Canadian Press) Two drowning accidents took three lives in Eastern Canada at the weekend, two persons died in traffic accidents, two drowned in a fire, and a hockey player was killed by a train.

run over by a shunting freight train as he crossed under a freight car in a nearby field.

Struck by a bus, Mrs. Wrench's 10-year-old son, William Wrench, was killed. Saturday night in Hamilton.

BABY'S COLDS

Home remedy for relieving infants of their colds. No dosing to upset stomach. No danger of injury suffered when he was just rubs it on.

It's Never Far From Where You Are SUPERTEST

PITY A POOR SILKWORM!

No one tipped him off to new synthetic yarns which would endanger his markets. Now, new ways and new materials are passing him by.

It is not produced by chemistry from coal, air and water after ten years' patient research—it is an example. This wonderful new yarn is already flowing into the manufacture of glamorous hosiery and will soon be used in foundation garments, lingerie, and many other textiles, thus creating new Canadian jobs and new standards of beauty and service.

SERVING CANADIANS THROUGH CHEMISTRY

Embassador to Martin George B. Macmillan, ABOVE, may be named by the government for the recent post of ambassador to Argentina. The Argentine government agrees. It was reported in diplomatic circles.

JACKSON CHARGES DEFENCE WITH ANTI-SEMITISM

**Trial Prosecutor Says
Rosenberg Defense
Using Crimes Trial
As Sounding Board**

By ROBERT KILMER

ROSEMONT, April 9 (AP)—
Justice Robert H. Jackson, chief
United States prosecutor, charged
today that the defense
attorneys in the atomic bomb
case were attempting to
"use the crimes trial as a
sounding board" through
the use of anti-semitism.

Jackson's charges
based on an exhibit of docu-
mentary evidence which he
submitted to the jury. He
said the defense attorneys
were attempting to use
the Rosenberg case as a
sounding board for the
atomic bomb case.

Bar Association Wants Govt. To Simplify Income Tax Laws

Ottawa, April 9 (CP)—
The Canadian Bar Association
has a definite request
to the government to
simplify income tax
legislation and end a condition
which it believes is
causing confusion and
expense to the public.

The association's
request is based on a
survey of the income tax
laws which it has conducted
in the past few years.

The association's
survey found that the
income tax laws are
extremely complicated and
difficult to understand.

The association's
survey found that the
income tax laws are

difficult to understand.

Divorce Action Strips Husband Of Possessions

Los Angeles, April 9 (AP)—
Even the \$20 he had in his
pocket went to Mrs. Campbell,
under an agreement
reached today in a divorce
action against her husband,
Dr. William Campbell, a
renowned professor at the Uni-
versity of California.

Dr. Campbell dropped the
case last week. Mrs. Campbell
had asked for a divorce
on the grounds of cruelty and
adultery. She had also asked
for the return of her possessions,
including a car and a house.

Churchill Pressed Roosevelt To Manoeuvre Against Japan in '41

Washington, April 9 (AP)—
Winston Churchill pressed the
late President Roosevelt as early
as February, 1941, to "assist in
Japan's defeat," according to
a new book by the author,
John G. Sweeney, published
today by the United States
Government Printing Office.

The book, "The United States
and the World War," is a
collection of Churchill's letters
to Roosevelt during the war.

BAKANA PAGES UNCHANGED

Ottawa, April 9 (CP)—
The Canadian government has
announced today that the
recent price increases allowed
to Canadian manufacturers for
raw materials will have no
effect on the price of the
finished goods.

House Twelve Millions
Paid for Assets Worth
\$59,000,000

By DAVID O'CONNELL

London, April 9 (CP)—A
31 per cent decrease in the
United Kingdom's expenditure in
the United States for surplus
ware was reported today by
the House of Commons.

The report was made by
Mr. Dalton, secretary of the
Treasury, in a statement to
the House.

Mr. Dalton said that the
United Kingdom's expenditure
in the United States for surplus
ware had decreased from
\$197,000,000 in 1944 to
\$133,000,000 in 1945.

Chance of Chain Reaction Small

Los Angeles, April 9 (AP)—
The chances of an atomic bomb
chain reaction in the United
States are small, according to
Dr. Harold C. Urey, a leading
expert on the subject.

Dr. Urey said that the
chances of a chain reaction
in the United States are
small because of the lack of
suitable materials.

HEAVY WEATHER SLIGHTLY EASIER IN PARIS APR. 25

Field Marshal Alexander
Will Not Arrive in Halifax
Till Wednesday Afternoon

By JACK BRAYLEY
(Canadian Press Staff Writer)

Halifax, April 9 (CP)—
During the night, the big transport
airplane which was to bring
Field Marshal Alexander to
Halifax was delayed by heavy
weather.

The marshal is expected to
arrive in Halifax on Wednesday
afternoon.

Accused Confined In Straphigh

New York, April 9 (CP)—
Confined in a straphigh, which
was being used to transport
him to the court, a man accused
of the murder of a woman was
detained today.

Churchill Pressed Roosevelt To Manoeuvre Against Japan in '41

Washington, April 9 (AP)—
Winston Churchill pressed the
late President Roosevelt as early
as February, 1941, to "assist in
Japan's defeat," according to
a new book by the author,
John G. Sweeney, published
today by the United States
Government Printing Office.

The book, "The United States
and the World War," is a
collection of Churchill's letters
to Roosevelt during the war.

Refrigerator Dealers Harried By Great Demand for Units

So you want to buy an electric refrigerator?

Germany wanted the world. The Philadelphia Phillies want a pennant. Goering wants an aqueduct, and a lot of Joe was jobs.

The odds are terrific against the slings of the baby-saver. At the present moment, refrigerators of the electric type are scarce as a problem at a cocktail lounge owner's convention.

You can place your order, if you wish, there is no law against that. But the best thing to do is to wait until the spring habit of getting one is over.

Within an hour yesterday morning, the telephone in First Street, electric appliance dealer's shop rang five times in each case, it was an order for a query about the possibility of getting one of the rare combinations that keep food fresh and the household in good humor.

DAILY'S IS DELICIOUS

DAILY'S ORANGE TEA

A DAILY REFRESHER

• Use DAILY'S daily — if you like the really good tea. For a convenient Canada's most popular beverage. It's so delicious that it's perfect. Now you can get it daily. New and improved. Ask Men for it.

COULD GOT YOU STUFFED UP?

Do This Quick for Relief

Do this quick for relief... it's the only common sense that, in fact, only common sense then, isn't it with new Peppodent Antiseptic.

NEGRO PLAYERS MAKING GOOD

President Hector Racine Quite Enthusiastic Over Chances of Jackie Robin-

BY AL PARSLEY

Montreal, April 11 (AP)— Jackie Robinson is bright. The first two negroes to sign contracts in modern organized baseball, he is counting more on his wits than on his speed. Montreal Royals' chances of repeating as International League champions are slim. But Robinson and the parent Brooklyn Dodgers and the parent Brooklyn Bachelors of the Negro American League must earn their positions fairly and squarely in the opinion of the fans at Truax Stadium.

In Montreal the first thought is—can these athletes play baseball? The Royals are hoping that Robinson will be the first base after Leo Durocher makes up his mind on whether to play for Brooklyn.

It is a little hard to believe that a star who has been on at shortstop with third base open scrap, Leo Rodolakis will be the first to say that he can't make the grade at first base. But the Montreal manager Jake Raminetti might say that.

The outfield looks to be a little shaky. The first base, second and third base positions are held by Ted Tatum, Dick Whitman and Jim Furtile in the last. Whitman and Furtile are traveling men.

Canada's 17th Governor-General Installed in Office

Senate Chamber Scene Of Solemn Ceremonies

By JACK BRANTLEY
(Canada Press Staff Writer)
Ottawa, April 12.—(CP)—Assist the peeling of the carillon, the thunder of guns and the blaring of bands, Vincent Alexander, Canada's 17th Governor-General, today arrived in Ottawa.

A last minute chapter of minor railway accidents threatened to delay the ceremonies, but yoman work by actual train crews patched a broken coupling and the vice-regal nine-car train was only three minutes late arriving here.

The big special was held at the overnight stop at Vars, Ont., where the train was met by the Montreal-bound Canadian Pacific train. The special locomotive was a 1911 model, the first of its kind to be used in the service of the Canadian Pacific.

However, when the locomotive started it pulled down a couple of cars from the fourth and fifth cars, and the train was delayed for a while. But the train made up many minutes of its lost time in Ottawa and was the welcome of the Governor-General.

After returning to the Governor-General and Lady Alexander, the Governor-General and Lady Alexander were met by the Mayor of Ottawa, Mr. J. H. Chapman, and the Mayor of Montreal, Mr. J. H. Chapman, and the Mayor of Montreal, Mr. J. H. Chapman.

After returning to the Governor-General and Lady Alexander, the Governor-General and Lady Alexander were met by the Mayor of Ottawa, Mr. J. H. Chapman, and the Mayor of Montreal, Mr. J. H. Chapman, and the Mayor of Montreal, Mr. J. H. Chapman.

KATEMORRIS SAYS HE STROVE TO FIGHT, WRONG

Gives This Reason Why He Remained As Lieutenant Of Heinrich Himmler

Montreal, April 12 (AP)—Katemorris, a Canadian-born soldier, today said he strove to fight, but was wrong in his decision to remain as a lieutenant of Heinrich Himmler.

That decision, he said, was a mistake, and he regretted it. He said he had been misled by the German propaganda machine.

He said he had been misled by the German propaganda machine, and he regretted it. He said he had been misled by the German propaganda machine.

ELIMINATE POINT SCORES FOR ARMY DISCHARGE APR. 15

All Soldiers Except Those Engaged In Special Service Work Eligible

Ottawa, April 12.—(CP)—The Government announced today that point scores for army discharge will be eliminated April 15.

All soldiers not members of the interim force or engaged in special service work will be eligible for discharge on that date, a statement said.

Only by this means will it be possible to find sufficient soldiers to replace those who are being discharged, a statement said.

Personal returning from overseas would continue to hold first priority for discharge, but it would not be possible to discharge them until the interim force was reduced to a level which would allow them to be discharged.

The statement said more high-point scores would be required to discharge them until the interim force was reduced to a level which would allow them to be discharged.

EXILE SAYS SPAIN IS CONFINED MAN HAS 450,000 TROOPS ON BORDER AFTER EIGHT DAYS

Dr. de los Rios Says He Has Proof of Aggressive Spain in That Country

New York, April 12.—(AP)—The mounting controversy over the Franco government in Spain, which is expected to reach the peak of the United Nations Security Council next week, was swelled today by an exiled Spanish Republican leader's assertion that Generalissimo Franco has 450,000 troops massed menacingly on the French frontier.

The French frontier, the exiled leader said, was being threatened by Franco's troops, which he said were being moved into the region of the Franco frontier.

Washable Town Dress

A daily evening session will make you feel clean

Between a girl and an old complexion, there goes a continual battle. Subsequent gains keep on spoiling like old gushers. Old lines on the face, the old powder, the old skin, the old eyes, the old hair, the old teeth, the old everything.

A daily evening session will make you feel clean

Through face washing with a bland soap, every particle of dirt is washed away. The heavy coat of dirt, the old powder, the old skin, the old eyes, the old hair, the old teeth, the old everything.

A daily evening session will make you feel clean

It is not a far step from looking like a beauty to looking like a beauty. It is not a far step from looking like a beauty to looking like a beauty.

A daily evening session will make you feel clean

It is not a far step from looking like a beauty to looking like a beauty. It is not a far step from looking like a beauty to looking like a beauty.

Blind, Crippled Veteran Designs Bust to Accommodate 12 Wheelchairs

blind, crippled veteran, of the First Great War who has devoted his life to the welfare of his fellow veterans, has designed a bust to accommodate 12 wheelchairs. The bust is made of wood and is designed to accommodate 12 wheelchairs, and is designed to be placed in the front of a building. The bust is designed to be placed in the front of a building.

Walter Callier worked out the details of his bust. The bust is designed to accommodate 12 wheelchairs, and is designed to be placed in the front of a building. The bust is designed to be placed in the front of a building.

"We are exceedingly interested in this plan of yours," the manager of the Ottawa group said. "When the design is finally completed, we should like to be advised so that we may be able to have it made, finished, perhaps, by the end of the year."

SHANE FISHERS told us that he was a Canadian-born veteran of the First World War. He was a Canadian-born veteran of the First World War. He was a Canadian-born veteran of the First World War.

Brides of Aussies Languish at Home

Canberra (CP)—Pinning their hopes of an early passage to Britain on a recent statement by the Australian Resident Minister in London, J. A. Beasley, are 500 Australian wives of British naval personnel, at present languishing as official lists.

Shipping space would be provided for 1,000 war brides to sail to Australia in March and April, Mrs. Beasley said. The British Ministry of War Transport, said Mrs. Beasley that five ships had been made available to carry brides to Australia and New Zealand in the next two months.

Presumably, bride passages would be allocated, in as well as to those who are in the United Kingdom for the time being, and men return to the United Kingdom for the time being, and men return to the United Kingdom for the time being.

Happy days are here again...

(A SIMPLE TALK TO SHOW, HOW BANK CREDIT WORKS)

ANGLO-BEAR

The largest fisherman owned animal is the enormous Alaskan brown or Kodiak bear. Its average reaches a weight of 1,500 pounds.

Canadian Nickel!

THE ROYAL BANK OF CANADA

Belleville Branch — I. G. HEFKEY, Manager

Mr. TWITCHETT was so happy yesterday. He had a problem. He lacked ready cash for his business.

He makes small novelties—does a nice business in them, too. But he couldn't allow his customers to wait even a few days to pay. In the meantime he has to pay his workmen every week, meet his bills every month... pay promptly for metal and wood and other raw materials to earn valuable discounts.

So, yesterday, like the sensible business man he is, he borrowed enough from the Royal Bank for his current needs. When Twitchett's customers pay him, he'll pay off the bank.

This is a simple illustration of bank credit.

brings you Woollen goods

Australia is the world's largest producer of fine wool. Canada is the world's largest producer of Nickel.

Wool is Australia's chief export. Less than three per cent of the Nickel produced in Canada is consumed in Canada. The rest is exported, and the money received helps to pay for Australian wool and other products necessary to good living in Canada. Canada cannot keep on importing from other lands unless Canadian goods are exported.

Also, we must continue to export Canadian Nickel if we are to continue to employ thousands of Canadians in the Nickel mines, smelters and refineries, and other thousands who produce the lumber, power, steel, machinery and supplies purchased by the Canadian Nickel industry.

By constantly expanding the use of Nickel at home and abroad, the Canadian Nickel industry brings additional benefits to Canada and Canadians.

1944

HORSE SENSE BRIDGE

LESSON NO. 32
BY KATE GORDON
The Kilties

Here we go again! The lead of a small horse is either on a long or a short cut. If it is from a long cut, it should be its fourth beat. If it is from a short cut, it should be its fourth beat. If it is a fourth beat, subtract the lead from 11. The answer tells you how many higher cards the lead will be in the other three hands. That number is quite easy to get.

If the small card may not be the fourth lead of a long lead, it may be the highest of a short lead. Now with this rule, you can tell in that case how many higher cards the lead will be in the other three hands. That number is quite easy to get.

Here comes the answer. When you have it, you may laugh your head off.

The towering Nazi defendant acknowledged that he had received regular reports during his imprisonment in Austria, of the progress of Jewish extermination in various parts of Europe.

"I cannot deny this," he said. "The reports were distributed to Reich officials all over the Reich."

Former Reichsmarschal Hermann Goering was absent from the trial. He was suffering from a medical officer said the prisoner's old staff was broken and he was expected to return to his cell Monday.

Atomic Age One of Devastation Or One of New Sources of Power To Lighten Labors of Mankind

Washington, April 18.—(AP)—President Truman on Monday called on the American people to help eradicate "the poverty and ignorance" which breed wars.

Speaking at a Pan American conference, Mr. Truman urged continued hemispheric solidarity and resistance to the "evil and dangerous forces" of reaction in the atomic era's dawn.

That (atomic) age," he told the governing board of the Pan American Union, "will either be one of complete devastation, or one in which new sources of power will lighten the labors of mankind and increase standards of living all over the world."

Declaring that the American people have repeatedly reaffirmed their devotion to democracy's ideals "in the face of constant propaganda for Nazi and Fascist doctrines," the president expressed confidence they will continue the "bold march" with which "they have resisted the forces of reaction from abroad during the last decade."

"...but if we have learned anything in the last decade it is that no nation can stand alone. Only through a genuine co-operative effort can peace goals be achieved in the world at large."

\$24,756,130 Surplus for C.N.R. In 1945, Net Increase of \$1,729,206

Ottawa, April 18 (CP)—Canadian National Railways showed a surplus of \$24,756,130 for 1945, an increase of \$1,729,206 over the previous year—despite reductions in freight and passenger traffic. It was recorded in the annual report made public Monday.

The report, stated by R. C. Vaughan, chairman and president of the railway for the directors, was tabled in the Commons by Transport Minister Chavira. Mr. Vaughan said figures of 1945 operations reflected "advance in direction and pace" as the world moved from a war emergency to a period of reconstruction. Traffic volume continued at a high level for the first nine months of the year and then the trend was downward.

Revenue freight handled amounted to 72,041,298 tons, compared with 62,811,179 tons in 1944. Passengers carried numbered 8,870,800 as against 8,993,312. While direct war expenses diminished the railway and a heavy task in handling repatriation of members of the forces. Railways and highways.

At two important points in the report Mr. Vaughan looked to the future.

"Competition between railway

As His Excellency Field Marshal R. B. Alexander stepped from the vice-regal train at Ottawa's Union Station, they were greeted by Hon. James A. Glen, minister of mines and resources.

British Outlays Almost 6 Times As Much as in '39

By JOHN DUFFY (Canadian Press Staff Writer)

LONDON, April 18 (CP)—The British government's war and reconstruction expenditures were almost six times as great last year as in 1939, with 53 per cent of the total in 1944.

The report, which was the highest proportion in six years, showed that the government's outlays in 1944 were \$1,385,150,000, compared with \$238,000,000 in 1939.

Of expenditures, the report said, 53 per cent was for the war effort, 18 per cent for reconstruction, and 29 per cent for other purposes.

WAGE WITH DYNAMITE

FLYING, April 18 (CP)—A group of boys playing with a stick of dynamite blew it up in a school in 1944.

The report, which was the highest proportion in six years, showed that the government's outlays in 1944 were \$1,385,150,000, compared with \$238,000,000 in 1939.

Agriculture Course at B.C.I. Recommended to Local Board By Inspector From Department

With Commencement in Sept. With a Starting Enrollment of 25 Students.

Introduction of a course in agriculture at the Belleville College and Vocational School, has been recommended to the local board of education by the department of agriculture. The considerable number of students attending from the rural areas in the Belleville district, recommended to the local board of education at their regular meeting Friday evening, the introduction of a course in agriculture at the Belleville College and Vocational School. The department of agriculture, under the supervision of Mr. Norman Hargrave, has been working on the matter and reported out that an increasing number of students are being introduced to agriculture in the rural areas. It was decided to provide a course for the large number of students and girls who do not complete the five year secondary school.

It is such a course were to be in the

"LIFE'S BIGGEST MOMENTS"

The day he takes "his first step!"

Up off his chubby knees he clambors and wobbles through that First Unassisted Step. And in time as he's scuffling his way through those, pushing little pebbles, kicking twigs, and trying toward manhood on his own two feet.

It's a big moment. A moment to make a proud parent start and think about the course those little feet will take... after that first step. It's a good time to think about getting those feet going in the right direction. For example, if you call it your North American Life representative he can show you how to make sure of important things like education and proper care for that young life-saver... no more what happens to it. He can show you a Life Assurance programme that guarantees funds to help those feet toward a college education or a business opportunity when the time comes.

RESERVE JUDGMENT
Toronto, April 17 (CP)—Ontario Court of Appeal yesterday reserved judgment in the appeal of a conviction of a woman for aiding and abetting the commission of a crime from a judgment by Mrs. Justice G. A. Urquhart who said she was not satisfied to prevent army stores from proceeding further with charges against a former member of the Black Panther Party, George Thompson of Montreal, for possession of army stores and conduct in violation of the law of arms and discipline.

[illegible]

In 1939, she filed suit for separation in New York, alleging desertion. However, the following year a settlement was reached, giving her custody of the children for three months a year.

She and the children arrived in 1941, and a few months later she was awarded their full custody, in connection with a suit for divorce.

But in 1943, her father petitioned for their custody, terminating the daughter's custody of the "permanents" to have their charge. An out-of-court settlement later reaffirmed her custody, on condition that the children live in the plantations home.

Radio Broadcasters Free of Coercion

Washington, April 17 (AP)—President Truman signed Tuesday legislation making it a federal offense to use coercion against radio broadcasters.

Sponsors said the measure is designed to halt certain practices of the American Federation of Labor.

The law prohibits anyone from threatening or attempting to compel a broadcaster to:

- Hire more employees than they want.
- Pay money for services not performed.
- Play unions for the use of phonograph records.
- Pay again for broadcasting a transcript of a previous program.

Independent Press Essential Need States Douglas

Burlington, April 20—(CP)—Burlington Douglas told a meeting of Western Canadian newspaper editors that he opposed government censorship and said it was the duty of the press to report on all events in which there was a national interest, and that the press should not be censored.

Addressing the meeting, Douglas said the press is the only body that can give the public the truth about the government and its policies. He said the press should not be censored, and that it is the duty of the press to report on all events in which there was a national interest.

Easter Buying Up 15 to 25 P.C. Life Overwriters Given Challenge By A.E. Ironside

By The Canadian Press
Cash registers were kept counting the number of life insurance policies sold in the first post-war Easter season. The results showed a 15 to 25 per cent increase over the previous year.

A Canadian Press survey of life insurance companies in the first post-war Easter season showed a 15 to 25 per cent increase in the number of policies sold. The survey was conducted by the Canadian Press, and the results were published in its daily edition.

Lord Keynes Dies Suddenly

London, April 25.—(CP)—Lord Keynes, 80, noted British economist, died suddenly today while playing an important part in international negotiations.

The former spending policies minister of the Conservative government was in Rome, Rome, Italy, where he had been invited by country boss at Silvio Berlusconi's invitation.

He was in Rome, Italy, where he had been invited by country boss at Silvio Berlusconi's invitation.

LOAN KEYNES returned two weeks ago from an international conference at Savannah, Ga., where colleagues said he was under considerable pressure to resign from British delegation. He was ordered by his physicians to take a complete rest. The Earl of Keynes, retiring ambassador to the United States, Lord Keynes was once the principal negotiator of the U.S.'s \$2,750,000,000 loan and credit from the United States.

Trotsky Book Hints Stalin May Have Had Hand in Lenin's Death

New York, April 23 (AP).—Leon Trotsky, in a posthumous biography of Joseph Stalin, published yesterday, posed a series of questions as to whether Gen. Stalin might have had a hand in the death in 1924 of Nikolai Lenin, honored in Russia as the founder of the Soviet Union.

The book, which was written by Trotsky, said the circle of ill-fated 1924 plot was a "mysterious death." It is a mysterious death, he believed, when it follows the death of a man who was Stalin's very character.

Stalin was a man of "a peculiarly cold and calculating nature," the book said. It was published in six parts after Trotsky, Stalin's bitter enemy, fled to Mexico City, where he died in 1940. The book is a collection of two-thirds of the book at the time of his death. It is a collection of "poisonous notes and memoranda" which the editor and translator, David Brown, has put together. The book is a collection of "poisonous notes and memoranda" which the editor and translator, David Brown, has put together.

Federal Gov. Will Aid Provinces To Fight VD if D-P Parley Succeeds

By MARC O'DONNELL
Canadian Press Staff Writer
Ottawa, April 23. (CP)—Should agreement on new financial relations arise out of the Dominion-Provincial conference, the federal government will make \$500,000 available to the provinces annually to help them fight venereal disease on the upsurge since the outbreak of war.

The grant would be paid 50 per cent on the basis of population and 50 per cent according to the number of new cases of venereal disease reported in the previous calendar year.

The provinces have been steadily improving their machinery to fight against the disease, but so far have been unable to gain the upper hand. The number of cases of gonorrhea increased from 15,979 in 1940 to 23,237 in 1942. Syphilis cases climbed from 15,987 in 1940 to 13,278 in 1942.

In the first two months of this year the number of cases of gonorrhea and syphilis was set at 238 compared with 5,688 in the corresponding period of 1942.

Last year was the peak year for gonorrhea, with 23,237 cases being reported. The peak for syphilis was reached in 1940, with 15,987 cases.

Figures compiled by the Dominion Bureau of Statistics gave this breakdown by provinces for gonorrhea cases during the last three years.

1943 1944 1945

treatment for millions of venereal disease. However, provincial officials agree there still are too many cases unreported and untreated due to suspicion, ignorance or reluctance in obtaining prompt treatment.

In Saskatchewan and Alberta there have been passed pre-marital blood tests for VD compliance. British Columbia has a similar law on the Statutes but it has never been enforced.

Columbia, 1,250 1,250 1,250
United ... 1,457 1,457 1,457
The figures covered cases both for the Armed Forces and the civilian population.

After After After
Army venereal disease control officers said it was an "unfortunate fact" that between 40 and 70 per cent of the new cases in the army were soldiers and 70 per cent returned from overseas.

The officers said the cases were not being carried back from overseas, because men suffering from the disease were not given leave until they were rendered non-infectious.

Most provincial governments now are providing free medical

1946 is an all-important year FOR CANADA'S TOURIST BUSINESS

MILLIONS OF AMERICAN VISITORS are expected to come to Canada during 1946 for their first post-war vacation.

It won't always be easy to accommodate them. We still have our crowding and shortages. We are still in the aftermath of war. This is the very reason we should all take special care to be courteous and considerate to our guests this summer.

This year, of all years, we must maintain the reputation we have won for true hospitality.

YOU MAY NEVER SEE A TOURIST, BUT... tourist dollars flow to you. The grocer, the garage man, the farmer, the office worker—everybody benefits directly or indirectly from tourist spending, and the extra work and income it creates. Last year, tourists in Canada spent more than one hundred and fifty million dollars. In the years ahead, so our ability to handle tourist traffic grows, who is to say how big this business may become? For Canada is in an enviable position—a natural vacation land next door to the most traveled mind-canal in the world: This is an all-important year! It may be difficult in many ways yet it holds great promise for the future:

"WE HAD A MARVELLOUS TIME IN CANADA"

THEY'RE TALKING ABOUT US... We want them to come again: We want them to tell their friends: "We had a marvellous time in Canada!" By making them feel welcome, we can win millions of enthusiastic salesmen for Canada—"satisfied customers" who will pass on to many times their number the story of Canadian hospitality and of Canada's unlimited attractions as a vacation land.

Will Demonstrate Willys Jeep On C. Reid's Farm

The versatile working qualities of the famed new Willys Universal Jeep, the vehicle proven as a mobile unit with the armed services, will be given a complete demonstration next Wednesday afternoon as a farm power unit in the form of Clifford Reid, six miles east of Belleville, on the Kingston Road.

All kinds of farm work will be featured during the demonstration, including plowing, harrowing, discing, rotation of hams-

mill, as well as many other types of stationary power work. Manufacturers claim the Jeep serves equally as well as a tractor, a truck, as a farm trambol, or as a stationary power unit using its built-in power take-off.

The demonstration at the Reid farm is being arranged by the district distributors for Willys cars, Jeeps and station wagons, Bonn Motor Sales, Belleville.

LIGHT COATING OF SNOW. Kingston, April 27 — (CP) — Kingstonians awakened this morning to find winter had made a return visit. Streets, houses and trees were covered with a light coating of snow and more was falling slowly rising temperature, however, suggested the snow would not remain for long.

Given 2 Years For Bigamy

Brookville, April 27 — (CP) — Harrison Carbin, 28, veteran of 4-1/2 years army service overseas, Friday was sentenced to two years on a charge of bigamy. Carbin married a local girl on his return from England where he previously wed an English woman who became the mother of his child.

Evidence showed Carbin married Doreen Grace MacIntyre, 27, a widow of Bromley, Kent, England in May, 1933 and a son was born to them April 30, 1934.

Bitten by Huge Rat 3 Stitches Required

Brookville, April 27 — (CP) — Twine attacked by a giant sewer rat in the city and died Friday. Willys Ray was bitten on the foot by the rat in two places. Three stitches were required. Three other wounds on the other was treated without necessity of stitches.

Ray, a baker, was on his way to work when the rat leaped from the street curbing. He said that in the darkness it "slipped" looked as large as a mast dog. He managed to kick the animal free when it bit his foot and it landed on the sidewalk. Ray said "The jumped back at me and hit me again on the leg. He kicked it several times and it let go of his finger and pulled away."

COUNCIL MUST VACATE RENTED CITY HALL

Niagara Falls, N. Y., April 27 — (AP) — The municipal council of this little town knows their reality is a housing shortage. The council announced today it had received orders to vacate its rented city hall.

Shed here is the wreckage of yard of a home in Los Angeles, a Western Air Lines plane, DCA-8, Calif., killed all three of the crew. The plane was on a test flight, down by Wayne Fisher, half pilot. Mary Edwards, coach pilot and Leon Turpin, mechanic.

Seven Employees of Canadian Industrial Alcohol Company Honored on Their Retirement

Guards of Company at Blinn and Presented With Billboards and Money

Serves employees of the Canadian Industrial Alcohol Company at Carburyville, whose combined years of service total 221 years or an average of 31 years and who are now on pension were entertained at dinner at the Queen Hotel on Friday evening by Wilfred Laporte, superintendent of the plant. Besides the seven retired employees there were present another members of the executive staff and a number of the young men who had worked for the company. Each retired employee was presented with a beautiful gold watch containing \$50 and along with it the wish that they would have many happy years of retired life.

An excellent dinner was prepared by the Queen Hotel and as there were thirteen at the dinner and most of those present being superintendents a "Kewpie" bill was added to the list of guests. A social half hour was spent reviewing old times at the plant and what the boys were doing to do with their leisure time, the company being a lot of things and some gardening.

Wilfred Laporte presided at the dinner and also made the presentation. At the conclusion of the dinner the party had pictures taken.

Mr. Laporte in making the presentation said:—

It is indeed an honor for me to be present tonight and to be the privileges of seeing old and former employees of the Company who have reached the age of superannuation being retired as a pension, which will assist them, and we hope, permit them to enjoy life for many years to come.

You are the first group to be retired under this new Pension Plan, and I sincerely hope that the Company will be able to continue this plan for many years to come, as others like myself are getting on years.

Arranged Get-Together

At most of you are our oldest employees we thought it only fitting that the little privileges be arranged to pay tribute to your many years of faithful work. While much partings are always sad, on the other hand, if you must have looked forward to the day when you could follow your own inclinations, whether it would mean taking or cycling (for our good friend Mr. Laporte) and as a whole, take life easier, which will add to your years.

Quite a Record

I have here your Unemployment Insurance Book and a small salary cheque, which I deeply regret having to hand you. However, I also have for each of you a billfold bearing your initials, containing five \$10.00 bills, which I would ask you to accept with the compliments of the officials of the Company and their sincerest wishes for a long and happy life.

For your information and that of our good friend Mr. Claude Tru, I would like to mention that the total years of service of the seven employees being retired is 221, or an average of 31 years. This is fairly a quite a record, and may not occur again, as in future, employees will be retired at 60 years of age.

Each One Thanked

In conclusion, on behalf of the management and the Board of Directors, each and every one of you for your co-operation and loyalty, and we want you to receive your money and your organization, not only on the day you receive your money but at all times. The plant will always be open to you, and I emphasize that you will not require the usual pass to visit your fellow workers.

BIG THINGS IN STORE FOR THIS LITTLE HOUSE!

If you plan to modernize or otherwise fix up your home in the near future, why not come into the HOUSTON CO., and let us help you with all the preliminary work—selecting the right materials, drawing up definite plans, etc.?

We're always glad to talk with you—so drop in soon!

Moustache Vogue Again?

City M. S. Schaffner in Rome City, Italy.

Proving once more that war has not been a deterrent to the fashion industry, the moustache is again making its mark on the world. In fact, it is now being worn by men of all ages and in all countries. It is no longer a sign of masculinity, as it once was, but a sign of fashion. It is no longer a sign of masculinity, as it once was, but a sign of fashion. It is no longer a sign of masculinity, as it once was, but a sign of fashion.

The moustache is now being worn by men of all ages and in all countries. It is no longer a sign of masculinity, as it once was, but a sign of fashion. It is no longer a sign of masculinity, as it once was, but a sign of fashion. It is no longer a sign of masculinity, as it once was, but a sign of fashion.

They, French, American, and Italian, have been seen in the streets of Rome. The moustache is now being worn by men of all ages and in all countries. It is no longer a sign of masculinity, as it once was, but a sign of fashion. It is no longer a sign of masculinity, as it once was, but a sign of fashion. It is no longer a sign of masculinity, as it once was, but a sign of fashion.

IT'S THE COVERING THAT COUNTS

SHIELDED!

Nature has gone to great lengths to shield from harm the ugly, delicious locust. With what craftsmanship it has been protected... by hard, flexible armor—formidable plating!

For 40 years Brantford Roofing, too, has used fine craftsmanship to shield Canadian homes from the onslaughts of weather—and time. To-day, Brantford Asphalt Shingles are playing their full, vital part in Canada's great home-repairing program. Countless thousands of Canadian homes are proudly protected by Brantford Roofing in many varieties of colour combination and design.

Brooklyn Kids, Boston Shuggers Face Tougher Tests as They Move Into the Western Section

First Sectional Series Done
Three Two Teams in Barre

By JACK HANCO
Associated Press Sports Editor
Barre, Vt., April 23.—The two league leaders going to the defending National League title fight in the opening inter-sectional series were the Boston Red Sox and the Brooklyn Dodgers. The Red Sox, who were the Western League champions, were the only team to win the series. The Dodgers, who were the Eastern League champions, were the only team to lose the series.

Although the Brooklyn swept through the series, on an eight-game winning spree until they were defeated at New York Sunday, they have been beating on tough pitching offered by the Phillies and Giants.

In the American League, the Red Sox, who face a tough week with New York and Detroit, have to open up against the Tigers on April 25. The Red Sox are the only team to win the series.

Joe Coughlin has been getting some criticism from Mickey Vernon and Joe Dooney. Coughlin is the only team to win the series.

Shortstop Johnny Pesky, Boston's hit in action today, was burning up the league with a .387 mark and a .400 average. He is the only team to win the series.

While the Red Sox face the Yankees, the Yankees face the Red Sox. The Yankees are the only team to win the series.

Washington's new star, who has been a cause for concern in the past, is the only team to win the series.

St. Louis Browns, who are the only team to win the series, are the only team to win the series.

Philadelphia at Pittsburgh. The Philadelphia are the only team to win the series.

St. Louis Browns, who are the only team to win the series, are the only team to win the series.

It appears that it is Pien's turn on the calendar. It is Pien's turn on the calendar. It is Pien's turn on the calendar. It is Pien's turn on the calendar.

It is not expected that Owen would win a championship. It is not expected that Owen would win a championship. It is not expected that Owen would win a championship.

What can I do? Each of us can help in and help in, in our own interest, we should. What can I do? Each of us can help in and help in, in our own interest, we should.

1. There is lots to attract visitors anywhere in the Province. 2. When you write your friends in the States tell them about the places they would enjoy visiting.

3. Try to make any visitor glad he came to Canada. 4. If they ask for information or directions, take time to answer them fully and graciously.

5. In any business dealings you have with them, remember Canada's reputation for courtesy and fairness depends on you. 6. To sum it up, follow the "Golden Rule."

Q. and A. Best. The largest trout caught in Ontario in 1935 was a 15 lb. 10 oz. trout. The largest trout caught in Ontario in 1935 was a 15 lb. 10 oz. trout.

While the muskie mentioned above was a record, it is not a record. While the muskie mentioned above was a record, it is not a record. While the muskie mentioned above was a record, it is not a record.

They'll Do It Every Time

LAST YEAR, THEIR FLOWERS WERE A TOTAL FLOP—THEY DUG THEM UP AND THREW THEM OVER THE FENCE—

OUT WITH THEM! GANTZ ZANES! MY FOOT! WE MUSTA PLANTED NERTHINS AND CLUNERS—

By Jimmy Harlo

BUT NOW! YOU SHOULD SEE HOW THEY'RE COMING UP THE HORN! ON THE WRONG SIDE OF THE FENCE!

QUESTION OF OIL. Chocolate is made with the oil left in cocoa is made with the oil taken out.

KNOWING COAL. Lignite is a dark brown coal with low carbon, and high oxygen content.

YOU'LL BE SOLD
